## Goodbye May, Hello June!

We have had a wonderful fun filled month with lots of learning. We ended our continents theme and dived into learning about transport. This month we will be ending our transport theme by looking at transport in the air.

We are excited to start a new theme on the Solar system. We will begin looking at Space and the Solar system and end the school year looking at transport in Space.

We cannot believe we have already come to the end of the 2022/2023 school year. What a fantastic school year we have had. We are sad to say goodbye to our friends who will be leaving our school this year but wish them all the best on their new academic journey.

We are also very sad to see our kindergarten group leave our classroom. We have loved watching their growth and development and we will surely miss having them in our class. We are excited to see them excel in Kindergarten with Ms Niki. Furthermore, we are excited to welcome all our new friends joining the class and welcome back our old friends too.

## Upcoming events

---

JUNE 7TH - GRADE 1  
GRADUATION

---

JUNE 9TH - SPORTS  
DAY FOLLOWED BY  
FAMILY PICNIC

Zindziswa 10  
Malaika 27  
Amelia 30

Dress up and art activity honoring Africa Freedom day

## African Sunset Art

## School recycling exhibition

Fun learning about different modes of transport

## Looking into the future

It has come to the time where we close the chapter and we get ready to take a leap and open a new chapter. Some children will be moving on to another classroom and others may be moving to a different school. Whichever it is, this can be an emotional time for parents and children. There can be worry, anxiety or excitement during this time.

If we take a look back at the year we can see how far the children have come, how much they have grown, how much they have learnt this year, the skills and development that they have acquired. We can definitely say we are proud of each and every child. They have worked so hard this year and we appreciate all the support all the parents have put forth this year.

Some children respond well to change and will feel ready for the move, while others may need more reassurance and preparation. Here are a few ways you can support an easier transition for your child.

- Meet the new teachers and visit the class. You can attend orientation days or meet the teacher events. Ask questions and voice any concerns you may have.
- Encourage your child to talk about their thoughts and feelings. Both positive and negative.
- You can share your stories of when you started a new class, how you felt and how your first day was.

**We look forward to the new school year beginning in August. We have another exciting year planned. We wish you all a fantastic holiday! See you all in August!**
