

"Reduce what you use, reuse what you can, and recycle what you're finished with. Every small act makes a big difference in taking care of our planet!" 

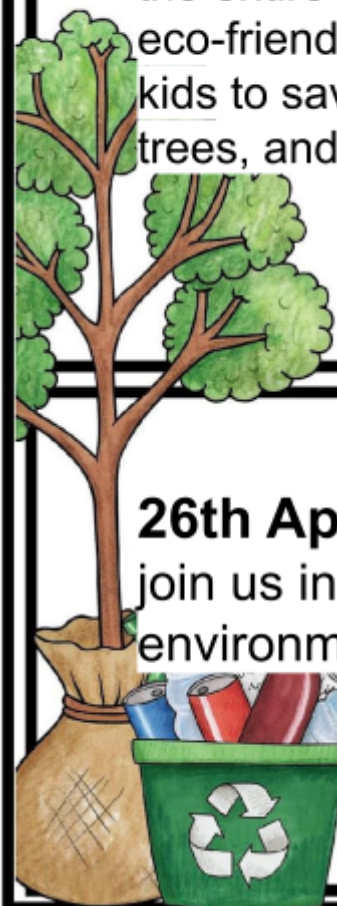

### **BIRTHDAYS**

3rd - Serena  
7th - Elliot

### **THE WORLD AROUND US**

#### **April 22nd Earth Day:**

April is our Earth Day celebration month! Throughout the entire month, we engage in eco-friendly activities, teaching kids to save water, preserve trees, and care for our planet.

### **EVENT**

**26th April:** Recycling exhibition, join us in supporting our young environmentalists!

### **LEARNING FOCUS**

**Literacy:** This month, we will continue to emphasize early literacy skills through reading, writing, and storytelling. We will focus on growing our word family words, which will aid us in our journal writing. Additionally, we will continue practicing letter formation through handwriting exercises.

We encourage you to read with your child at home and engage in conversations about the books they enjoy.

**Math Matters:** In math, we will be focusing on counting, number recognition, and basic concepts of fractions. We will also incorporate hands-on activities and games to make learning math fun and interactive.
